

# The Purpose, Time Frame and Method of Peace Meditation

(Latest Update: 5<sup>th</sup> April 2024)

## The Purpose of Peace Meditation

Participating in scheduled, synchronized group peace meditation with meditation pyramid is to join together the positive impulses of 3.5 billion extraterrestrials and other participants on earth to achieve a pronounced synergy effect, hoping to neutralize the negative impulses created by earth humans in the past and hence to bring in a possible long-lasting world peace.

## The Function of the Meditation Pyramid

The meditation pyramid is used to relay the positive impulses of meditators to the main meditation pyramid at SSSC, so as to synchronize with all positive impulses coming from other sources mentioned above and produce the targeted synergy effect.

## The Schedule of Peace Meditation

### A. Scheduled Time Frames

Peace meditations are held on four days every month: the first Saturday and Sunday of the month, then the third Saturday and Sunday. There are six peace meditation sessions during the month—two sessions on Saturdays and one session on Sundays.

### B. Outside Scheduled Time Frames

Starting from 6 April 2020, through Quetzal's advanced technology installation, all official FIGU groups and members can choose a convenient time of their own choice to perform group peace meditation with or without peace meditation pyramid.

## Method of Peace Meditation

It is really simple to participate in peace meditation. All we need is to recite a sentence of good wish for 20 minutes: **“Saalome gam naan ben uurda, gan njjber asaala hesporoona!”**

The sentence is in Lyrian language, a language previously spoken on Earth eons ago by extraterrestrials.

The meaning of the sentence is “Peace be on Earth and among all beings!”

**Listen to Salome:** [Voice Sample](#)

Any person who cares for the world peace can join in peace meditation. No special training is required.

Although there are no side effects by practising the peace meditation, it is recommended that children should be able to fully understand the purpose and join the peace meditation on their own initiative.

## Posture for Peace Meditation

(e.g. Pyramid on the table and meditators in sitting position)

Meditators may sit in equal distance around the pyramid. The purpose is to transmit the consciousness energy of meditators to the big pyramid of SSSC and joint together the consciousness energy coming from 3.5 billion extraterrestrial meditators. It is expected that this powerful synchronized positive energy can gradually neutralize those negative energy all around the globe and hence cultivate world peace.

1. Take the peace meditation pyramid out of its box and place it on the **copper plate** on top of the box (mini version) or on the **copper base** (regular version).
2. Place **one of the four base corners towards the magnetic north**, i.e. four base corners pointing exactly to North, East, South and West respectively.
3. Distance between the head of the meditator and the pyramid is to be 50 cm to 100 cm (less than 50 cm is not desirable).
4. Place the pyramid antenna (copper ring) to the same level of the forehead of the meditator (books or other suitable stuff can help in bringing the pyramid to the right height).
5. Mind and body relaxed, spine upright, palm face down on the thigh and fingers on the knees.
6. An alternative: both hands lying on the table and fingers pointing to the pyramid.
7. **With eyes closed**, repeat the Lyrian sentence for 20 minutes. In case of distraction, resume concentration back to the sentence at ease.
8. A muffled beep of a timer may signal the end of the 20 minutes meditation. This is to reduce the possible sudden shock impact to the meditators.
9. Meditators shall **rest** with eyes closed in the same posture for another 2 – 3 minutes (After a meditation session, our body may not be able to response to sudden body movements, which may trigger dizziness, unbalanced, or even heart disorders).

In case of not being able to join group peace meditation, one can always recite the Lyrian sentence to cultivate world peace. It just cannot produce the synergy effect of the synchronized peace meditation.
